

Two guitars and two trumpets are shown. Below them is an addition problem: a guitar icon with a blue arrow pointing to a square box, followed by a trumpet icon with a blue arrow pointing to another square box, an equals sign, and a third square box. Above the third box is a combined icon of a guitar and a trumpet with a blue arrow pointing down to the box.

Three helicopters and two motorcycles are shown. Below them is an addition problem: a helicopter icon with a blue arrow pointing to a square box, followed by a motorcycle icon with a blue arrow pointing to another square box, an equals sign, and a third square box. Above the third box is a combined icon of a helicopter and a motorcycle with a blue arrow pointing down to the box.

Five pears and one apple are shown. Below them is an addition problem: a pear icon with a blue arrow pointing to a square box, followed by an apple icon with a blue arrow pointing to another square box, an equals sign, and a third square box. Above the third box is a combined icon of a pear and an apple with a blue arrow pointing down to the box.

Four alarm clocks and two wristwatches are shown. Below them is an addition problem: an alarm clock icon with a blue arrow pointing to a square box, followed by a wristwatch icon with a blue arrow pointing to another square box, an equals sign, and a third square box. Above the third box is a combined icon of an alarm clock and a wristwatch with a blue arrow pointing down to the box.

Four forks and three knives are shown. Below them is an addition problem: a fork icon with a blue arrow pointing to a square box, followed by a knife icon with a blue arrow pointing to another square box, an equals sign, and a third square box. Above the third box is a combined icon of a fork and a knife with a blue arrow pointing down to the box.
